SQL Certificate

Solo learn

January 2023

Salesforce Administrator

Salesforce

February 2023

Projects

- REST API Integration: Developed a REST API integration solution to connect a mobile app with a backend database. Implemented authentication and authorization using JWT tokens.
- Data Migration: Designed and executed a data migration plan to transfer data from an old database to a new system, utilizing SQL scripts and JavaScript.

Key Achievements

- Successfully delivered multiple software projects on time and within budget.
- Contributed to the improvement of product stability and increased customer satisfaction.
- Implemented new software features that improved the efficiency of the development process.

Achievements

- Successfully implemented a new feature in an e-commerce platform that improved the overall user experience.
- Developed and maintained multiple web applications, utilizing technologies such as React, Node.js, and MongoDB.
- Collaborated with a cross-functional team to design and implement a responsive user interface for a mobile app.
- Improved the website performance by optimizing the database and implementing caching techniques.
- Mentored junior developers, providing guidance and training on industry best practices, and leading by example to encourage the adoption of modern development methodologies.

Objective:

- To utilize my education and technical skills to contribute to the growth and success of ADP as an Associate Application Developer. Looking forward to working with a team of experts and gaining hands-on experience in the development of innovative products.

PROFESSIONAL SKILLS

- Strong problem-solving skills
- Ability to work in a team environment
- Excellent written and verbal communication skills
- Independent, innovative, and self-motivated
- Ability to learn quickly and adapt to new technologies
